

IX Series 2

Changing the Call Destination

GENERAL OVERVIEW:

The call destination of a door/sub station can be configured to change from one location to another by either a set time of day or by a schedule. A new group of master(s) will need to be created before the destination can be set.

Table of Contents

Page 2	Creating a Group - Create a group of stations to change call destinations to
Page 3	Change Destination by Time - Change the call destination based on a period of time
Page 4	Change Destination by Weekly Schedule - Change the call destination by time and date
Page 5	Change Destination by Daily Schedule - Change the call destination by time on a specific day
Page 6	Upload Settings to Station - Upload the Settings and Schedule to the system
